Customer comments

Appendix 1 - Specified other reasons for contacting supplier from question 1:

- The supplier usually contacts me.
- My mum is my carer, she rings up and puts my order in and is filling in this form for me.
- To place an order for items for myself. Fittleworth obtain the prescription from my GP.
- The packaging of my order was damaged.

Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- Understanding the use of the word 'supplier' in this survey requires clarification. I have assumed it refers to Fittleworths. If so it would be better to substitute that name.
- Would like to inform you that the delivery driver to me in Coventry is the most helpful and delightful man. I have always found him most reliable and polite for the many years he has been delivering my stoma goods.
- It would be great to not have them call you every month for your order. If I didn't need them I would call and tell
 you. It should be done automatically, like before every month I had a delivery no call to ask if I needed any bags,
 obviously there's no doubts I won't need them. It should go back to how it was a few years ago.
- I request six boxes of urostomy bags, dry wipes, rubbish bags and one box of night bags via telephone call to Fittleworth at Littlehampton West Sussex, every six months approximately. Delivery time normally takes about two weeks which is not a problem for me. My urostomy bags are pre cut to suit my stoma. The service and quality of items are first class. I have no complaints whatsoever.
- Both your office staff and delivery drivers always give first class and polite services. Thank you.
- Several questions do not apply or are ambiguous.
- I hope I've answered properly. Staff and drivers are very good. No complaints of anyone. To me, everyone is perfect. I've had no problems with them. Very good very helpful.
- Always very helpful when we phone.
- Delays from order to delivery of around two weeks requires advance planning. Thought to be due to old style posting of prescriptions from GP to Fittleworth. Automating that link could speed things along (other GP prescription orders take two days).
- Q6a No written note, but supplier telephoned before expected delivery date indicating delay of approximately two weeks, in fact, delivery was well within that two week limit and well before I had run out of supplies. Q8 I do not now present a prescription to the supplier they arrange a prescription direct with the GP when I place an order. In fact, I do not even have to telephone an order as the supplier contacts me from time to time to check whether I am needing supplies. They do not actually ask whether I am satisfied or having problems, but I would be perfectly free to mention if the latter applied. Q10 The appliances (ileostomy bags) are not in themselves bulky, but the package of two boxes of 30 plus wipes and disposal bags is fairly bulky in any case, ever since I started receiving supplies they have been delivered to my home (16.5 years).
- The service has always been excellent. I only contacted them once because of packaging. To get prescription I inform GP and he sends details online to Fittleworth. It is usually delivered to my house within 10 days.
- I have problems sometimes getting prescription from GP surgery to Fittleworth which is annoying when you have phoned your order through to Fittleworth. GP surgery need to act quicker so we have order on time.
- The only complaint I have is that the wipes are not of the same quality as they used to be.
- The new dry wipes are not as good as the old ones.
- I don't think they need to improve, not in my case. I am sorry I might not answer the questions properly. I do not
 understand some of them. All I can say I have excellent service. They phone me every month if I need delivery
 and are always in time. Only once in 9 years they didn't have "aerosol spray" they phone me to make sure I have
 enough for next few days and delivered as promised. They offer me to try different "stoma" I didn't want, as being
 in a hospital I try few different one and the one I have got is the best. I had few letters to go to view new different
 suppliers with all sorts of thing. I went to one in Coventry. There was on in Birmingham and other places. I didn't
 go as in my age I have difficulty in travelling.
- No complaints with the company. I find staff and delivery excellent.
- Need more disposal bags.

Customer comments

- Fittleworth of Arundel, West Sussex provide the stoma bags and wipes and anything else I may require. Service is excellent and treated with courtesy and support. Reliable and approachable when contact for reorder is necessary. Reliable supplier, good service delivery.
- The service is great, thank you all for the years you have helped me.

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 51

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	50	0	0	0	1
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

(number of Very good ratings x 100.00) +(number of Fairly

good ratings x 66.67) +(number of Fairly poor ratings x

33.33) +(number of Very poor ratings x 0.00) +(number of

Don't know ratings x)	_ =	(50 x 100.00) +(0 x 66.67) +(0 x 33.33) +(0 x 0.00) +(0 x 0)
(total number of customer responses - number of Non rated responses)		(51 - 1)

Your mean percentage score for Q4a = 100%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100 Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0 Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100 Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean	Benchmark data (%)*					
	score (%)	Min	Lower Quartile	Median	Upper Quartile	Maximum	
Q4a Polite and took time to understand needs?	100	94	97	98	99	100	

*Benchmarks are based on data from 36 dispensing locations surveyed between March and May 2017 with 40 or more responses and a total of 2,236 returned customer questionnaires.
