Customer comments

Appendix 1 - Specified other reasons for contacting supplier from question 1:

- Treated by my stoma nurse. Trouble with my stoma.
- From hospital.
- New stoma template.
- Not done this recently.
- There was trouble with my prescription at the doctor's surgery.
- Always used them since operation.
- Fittleworth sort out prescription from my GP, I just order my supplies.
- Lost prescription. Delayed supply.
- To seek advice about a customised garment to support my hernias.

Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- Tried to do this through automatic contact, without having to receive a prescription then post it off. Just no-one at the surgery knew what they were talking about or did not even know of its existence.
- They are always very helpful.
- I fax what I need, I receive in two weeks, would help more if they texted me. Thank you.
- Don't like the new complimentary dry wipes.
- An excellent service provider.
- I have used Fittleworth for many years. When phoning my call is answered most times immediately, the delivery service is brilliant and the drivers are very pleasant. I am very secure with Fittleworth, they have never given me anything to worry about always give details of their services if travelling which is very useful and necessary
- I have been with you for 14 years and I am very happy with your service.
- A few times delivery has not been as prompt as usual. When I have contacted the team, they have always been polite and told me when delivery would be made.
- I think no you are all very good at helping people and very patient and kind on the phone. You are the best. I would recommend you all to everyone I meet. I thank you for all what you do.
- This company (Fittleworth) have always been first class. I don't see how they could improve. I think this company is one of the most efficient companies I have ever dealt with.
- Just before Christmas holidays I realised I had no pouches left. I phoned the suppliers but was told it was Christmas and no one could help me. They couldn't help and my local hospital couldn't help. I phoned back and told the lady no one could help and I was in such a state, this lovely lady asked me to stop worrying and she would get back to me. Hours later she rang and said she had found a driver and my emergency supplies were on the way. I cried with relief. I couldn't get out to buy her a card or chocolates but she was my Christmas angel. I will never forget her kindness or the driver's. They went out of their way to help me. I'd like her to know she made my Christmas. Bless her.
- Q11. When ordering the pouches a delivery period of two to three weeks is given. This does not cause a problem if you are well aware of your current supply! A shorter time between ordering and delivery would be preferable.
- I have no complaints about any of the services I have received from this company.
- They are excellent all through.
- She goes through quite a lot of stoma bags a day, when we discuss this, she just says in the hospital she could have as many as she wants, I just think we need double the amount of stoma bags plus every fortnight, as we are running out too often.
- When I became an inpatient in hospital, the prescriptions and goods were never delivered to the relevant ward and hospital, even though they were given a temporary address for delivery. Time critical for the goods so much, so appliances had to be sought in hospital colorectal department.
- Most of the problems are with the local surgery. Electronic prescription did not work. I have to deliver them personally and explain every time. This causes constant anxiety. I telephone call every few weeks to supplier and / or surgery.

Customer comments

- Very good.
- The service provided is always of a very high standard - I cannot think of anything that could significantly improve on what they do now. One satisfied customer!
- Complimentary wipes can go back the same as before. Disposable bags are too thin and black colour is not very nice.

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 87

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	79	6	0	0	2
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

$$\frac{(\text{number of Very good ratings} \times 100.00) + (\text{number of Fairly good ratings} \times 66.67) + (\text{number of Fairly poor ratings} \times 33.33) + (\text{number of Very poor ratings} \times 0.00) + (\text{number of Don't know ratings} \times)}{(\text{total number of customer responses} - \text{number of Non rated responses})} = \frac{(79 \times 100.00) + (6 \times 66.67) + (0 \times 33.33) + (0 \times 0.00) + (0 \times 0)}{(87 - 2)}$$

Your mean percentage score for Q4a = 98%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean score (%)	Benchmark data (%)*				
		Min	Lower Quartile	Median	Upper Quartile	Maximum
Q4a Polite and took time to understand needs?	98	94	97	98	99	100

*Benchmarks are based on data from 36 dispensing locations surveyed between March and May 2017 with 40 or more responses and a total of 2,236 returned customer questionnaires.
