## Customer comments

**Appendix 1 - Specified other reasons for contacting supplier from question 1:**

- For paperless prescription.
- On behalf of my husband, he is unable to use the phone.
- The catheters were sent to chemist instead of coming to our house.
- To source alternative appliances as well as repeat prescription.

**Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:**

- After using several disposal bags I find that code make 983-24 suit my needs. Is it possible to make it opaque where I cannot see the stool through the clear plastic. Much appreciated. Thank you.
- We used to have big wipes but they were changed over to these new ones which are not very good. The old ones you only needed two but the new ones you have to use four as when you wet them they go all soggy like wet paper which is not very good at all.
- Most of the questions were not applicable to the service I get. Basically I just ring Fittleworth, place my order, they advise a delivery date (which I can change if it is not convenient), they request prescription from my medical practice and deliver on arranged date. All 'done and dusted' with a five minute phone call.
- I have received stoma goods and accessories since 2008 and am very satisfied with their deliveries, staff, etc.
- I have not answered a lot of your questions as they seemed totally irrelevant to me.
- Could tell you about new things that come on market, and samples. Thank you. The flange a bit bigger, round edges as people with hernias, I find I get leakages now more. Thank you.
- Q11d - The new disposable wipes are not as good as the old type - the new ones are smaller and do not pull out one at a time.
- I receive medical supplies but not an appliance.
- I have been using Fittleworth for 17 years and have been very pleased with their service.
- A supply of S/A envelopes.
- I do not contact supplier if I have issues, as I have support team at the hospital. My supplier has notified me twice that my GP has made an error on my prescription. 1 box instead of 15 and they helped me sort out with advice and small delivery to help me, especially over Christmas/New Year.
- Service good now. Has been times in past where orders took long time to come or got forgotten.
- On one occasion the supplier was unable to find my address.
- Always very helpful and friendly. Pleasure to deal with.
- Everything is always dealt with promptly and efficiently.
- Wonderful service, always polite, courteous, and very helpful.
- Q8 - did not answer - I order my products so specific to my usage via online with GP to supplier to reduce waste. Never repeat prescription.
- Sometimes the box of medical supplies is left on my doorstep all day (whilst I am at work). Despite many complaints to Fittleworth, this still occasionally happens.
- The period for delivery of the items is eight to ten working days, which is too long. Before I was able to order my appliances by telephone but this is no longer possible. I have to send the prescription by post and delivery is over two weeks later!
- Have always received prompt and helpful service from Fittleworth.
- Communication generally very poor with the exception of the stoma care nurse who was helpful.

## Supporting documents

## Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 61

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	52	1	1	1	6
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

$$\frac{(\text{number of Very good ratings} \times 100.00) + (\text{number of Fairly good ratings} \times 66.67) + (\text{number of Fairly poor ratings} \times 33.33) + (\text{number of Very poor ratings} \times 0.00) + (\text{number of Don't know ratings} \times 0)}{(\text{total number of customer responses} - \text{number of Non rated responses})} = \frac{(52 \times 100.00) + (1 \times 66.67) + (1 \times 33.33) + (1 \times 0.00) + (0 \times 0)}{(61 - 6)}$$

Your mean percentage score for Q4a = 96%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

## Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean score (%)	Benchmark data (%)*				
		Min	Lower Quartile	Median	Upper Quartile	Maximum
Q4a Polite and took time to understand needs?	96	94	97	98	99	100

14907

\*Benchmarks are based on data from 36 dispensing locations surveyed between March and May 2017 with 40 or more responses and a total of 2,236 returned customer questionnaires.
