## Customer comments

### Appendix 1 - Specified other reasons for contacting supplier from question 1:

- This was done by East Surrey Hospital.
- To order supplies for myself.
- I always contact Fittleworth for my daughter for her medication she needs for her day to day life.
- Delivery set up by Guys Hospital.
- Hospital did.

### Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- I have used Fittleworth for 7 years and I have always been well satisfied. The staff are always very polite and helpful and delivery first class. Thank you.
- You my supplier provide an excellent service to me, never let me down, wonderful people to talk to, take care and put you at ease. Thank you all. Keep up the good work.
- I am very happy with the service from Fittleworth. They are very polite and helpful at all times.
- I am quite happy with the service.
- Always polite and prompt.
- Fittleworth are an excellent company and have always delivered on time and call regularly to check whether supplies are required.
- Delivery drivers, they have a problem with my address. They deliver to my neighbour and my neighbour complaining all the time. Can you please make sure and I live in second floor not in ground floor. Thank you.
- Overall everything (service) is good. However, please could the service supply more wipes both wet and dry as it's insufficient. Extra gloves and disposable bag are also needed.
- Fittlesworth are a great helpful service, always happy to help.
- A catalogue of all items provided by company.
- Until recently delivery was very good, now it is poor, they don't say if it will be morning or afternoon and delivery drivers don't wait for an answer, sometimes don't even knock, just throw package near door and go. I have informed you about this a number of times - to no avail.
- Never had any problems, always received excellent help.
- I have been getting my stoma supplies from Fittleworth for the last 10 years, and they're very helpful and caring. I have no complaints of the company. I find them very helpful at all times.
- No significant problems.
- Good service. No problems.
- Sometimes the parcel is not going to turn up on the date given, this is the GP's fault as he does not send the prescription in the post back quick enough, so most months it is late, but the supplier always rings to let me know and gives me a new date.
- I don't have any comments about these questions.
- My appliances are ordered by phone from Fittleworth, they then pass order to my GP for a prescription. When Fittleworth receive prescription items are dispatched usually arriving in 12 days. On one occasion prescription was not sent to Fittleworth. Surgery error but not picked up by Fittleworth. All sorted out at the time and has not happened since otherwise all working fine.
- Just more wipes needed as never have enough, usually run out after a week.

## Supporting documents

## Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 66

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	57	4	0	0	5
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

$$\frac{(\text{number of Very good ratings} \times 100.00) + (\text{number of Fairly good ratings} \times 66.67) + (\text{number of Fairly poor ratings} \times 33.33) + (\text{number of Very poor ratings} \times 0.00) + (\text{number of Don't know ratings} \times )}{(\text{total number of customer responses} - \text{number of Non rated responses})} = \frac{(57 \times 100.00) + (4 \times 66.67) + (0 \times 33.33) + (0 \times 0.00) + (0 \times 0)}{(66 - 5)}$$

Your mean percentage score for Q4a = 98%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

## Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean score (%)	Benchmark data (%)*				
		Min	Lower Quartile	Median	Upper Quartile	Maximum
Q4a Polite and took time to understand needs?	98	94	97	98	99	100

\*Benchmarks are based on data from 36 dispensing locations surveyed between March and May 2017 with 40 or more responses and a total of 2,236 returned customer questionnaires.
