Customer comments

Appendix 1 - Specified other reasons for contacting supplier from question 1:

- Doctors.
- My stoma nurse.
- Prescription confirmed by the local surgery.
- The stoma nurse ordered my first appliances in 2004 and I have been with them to this day.
- Stoma nurses contacted Fittleworth for me.
- I needed urostomy bag and colostomy bags.

Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- The new wipes are dreadful. Too soft and even when tripled not easy to clean stoma.
- An excellent service provided.
- The service provided by Fittleworth is and always has been excellent. Problems have arisen from time to time caused by prescription error or delivery delay from my GP service. Fittleworth have always been patient and helpful and made sure the patient is not inconvenienced.
- Monthly, before I need to order from my repeat prescription, I receive a reminder phone contact which is extremely useful. Delivery, quality of service generally is excellent. When ordering, i.e. clothing, etc. I am advised on how the order is passed on to the relevant department and the date of delivery. (When out, leave by the BBQ - it works - the instruction not the BBQ!).
- I would like information about ordering supplies through the website. I tried unsuccessfully to do this myself.
- Very satisfied. No problems so far.
- Some questions do not apply to me so I've ticked don't know, I hope this does not confuse you.
- The supply of goods is always A1. Cannot think of any way the service could be improved.
- Every contact with Fittleworth has been pleasing and effective. One would have to work very hard to find inadequacies. One hiccup in delivery was due to my mismanaging the order. The inconvenience was minimised by particular trouble taken by staff, close to the time of a national holiday. A response beyond expectation.
- Very efficient service provided. Thank you!
- Dry wipes have become too small and poor quality.
- I would just say that the service I have received was excellent. Every time I have phoned, any problems I might have had were sorted. Best thing I ever did was get my prescriptions through Fittleworth. A big thank you to all the telephone operators. Can't fault the service I received at all.
- I have a colostomy and I cut them myself to size. I also have an ileostomy and when it was done I was very ill and thin. I have since then put on some weight, making the pouches to be with a dent compression, and the staff cut these to 22mm it's on the computer, but the last few times I've received them uncut.
- I haven't been able to fill out this form not really applicable as doctors send for my prescriptions and you deliver. I am happy with the service and rarely have to contact you.
- Never had a problem, everyone I ring are very good.
- Maybe the delivery date could be earlier than at present.
- My husband and I both have stomas, we are very pleased with the service we receive, and are happy with the way Fittleworth have contacted us, if there was a delay or other problems, straightaway by phone. Thank you, we appreciate your services over quite a few years.
- I do think they could tell people more about things like underwear and different stoma appliances. I do ask and when I ask they are helpful but in my experience over 17 years patients are not always kept up to date and sometimes it can be awkward to ask as one thinks it is not the done thing.
- I have had pouches, etc. supplied by this supplier since 2003 and they have always been very helpful and friendly.
- All good no problems.
- Excellent service always. Thank you.

Customer comments

- After visiting a local NHS stoma care open day and trying a new product, I was unable to order this from Fittleworth because I hadn't used it before. It took 11 phone calls between Fittleworth, myself, and stoma nurses to obtain the product - don't think I will be attending any more open days if I can't change a like for like product.
- I don't think they could improve their service. The service is very good, had no problems over last seven years.
- First class.
- Happy.
- The only drawback on the delivery is that a smaller timeframe is not able to be given. We have used this service for eight years now and until recently a timeframe of morning or afternoon was given, but this appears to be no longer available as the last three deliveries we have been informed full day timeframe. Which is rather tricky!
- I have used the supplier for nine years and find their service just adequate. Sometimes I ring with a repeat prescription and am treated politely. At other times, I have not been sent the appliances on time, or the wrong appliance has been sent, causing an allergic reaction. When I ring, my treatment is usually poor, the telephone assistants do not handle my query with sympathy, their superiors are unhelpful. The problem is that each time (I call about once a month) is handled by a different operator, there is no continuity and notes are not passed on. Often I have to wait five to ten minutes before my call is answered. I have thought about changing supplier on several occasions.

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 65

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	61	2	0	0	2
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

$$\frac{(\text{number of Very good ratings} \times 100.00) + (\text{number of Fairly good ratings} \times 66.67) + (\text{number of Fairly poor ratings} \times 33.33) + (\text{number of Very poor ratings} \times 0.00) + (\text{number of Don't know ratings} \times)}{(\text{total number of customer responses} - \text{number of Non rated responses})} = \frac{(61 \times 100.00) + (2 \times 66.67) + (0 \times 33.33) + (0 \times 0.00) + (0 \times 0)}{(65 - 2)}$$

Your mean percentage score for Q4a = 99%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean score (%)	Benchmark data (%)*				
		Min	Lower Quartile	Median	Upper Quartile	Maximum

*Benchmarks are based on data from 36 dispensing locations surveyed between March and May 2017 with 40 or more responses and a total of 2,236 returned customer questionnaires.
