Introduction

This survey was designed to give you an insight into how your service is viewed by your customers. The report outlines the information that has been collected and analysed from your customers in the form of tables and graphs. Comparative benchmark data is provided where applicable. From the report you will be able to clearly pinpoint areas where you performed well and also those areas where you feel that improvements may be needed.

Details of your survey

195 patient questionnaires were sent out and 64 completed questionnaires were returned giving a response rate of 33%.

A breakdown of all the questionnaires that were sent out and returned is provided in the following table:

Designation of questionnaires sent out	Number of questionnaires
Returned questionnaires	
Successfully completed by patient	64
Questionnaire blank	2
Questionnaire returned to office undelivered	2
Patient deceased	2
Unreturned questionnaires	
Unreturned questionnaires	125
Total number of questionnaires	195

Customer comments

Appendix 1 - Specified other reasons for contacting supplier from question 1:

- Due to information received originally from stoma nurse.
- When in hospital in 2005 I was supplied with Fittleworth pouches for my stoma and have used products ever since.
- For my catheters.
- The pharmacy couldn't give me the service.
- Fittleworth phone me once a month and I give them an order and they tell me when it will be delivered.
- Contacted again as wrong item was sent.

Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- My devices are all supplied by Fittleworth and delivered to my home address. This service is brilliant.
- Delivery came after a long time (over 2 weeks).
- Never had any problems at all. Very good service, help me so much.
- Sometimes have had to challenge why my products were not delivered on chosen day of preference. Despite this being on system. Have on occasion felt attitude was sarcastic. Most of staff very good, just odd one. Not sure they always understand what these products mean to me and others.
- I am very satisfied with the service provided by Fittleworth medical and would not want to change. When I am out
 the delivery driver knows to leave my parcel in my porch. It can't be seen from the path. I have filled in as best I
 can.
- GPs should be able to send prescriptions directly to Fittleworth.
- No problems. First class service.
- I have always been very happy with the service that I have from Fittleworth in the past. Items were always on time. Many thanks.
- Fittleworth have supplied my medical requirements and I have had excellent service over the past many years.
- No complaints. Very good.
- I haven't been able to answer all the questions (being over 90 years) but I think the service provided is excellent.
- If out of stock, an alternative should be supplied, as failure to do so might leave the customer short e.g. "Pealeasy" was not available and not sent, leaving me rather close to not having any.
- Had many stoma bags that have leaked, nightmare.
- Best company I have ever dealt with. Staff are fantastic!
- Always had courteous, helpful service.
- When I went away recently, on the first night I discovered I had left home without appliances. I contacted the supplier informing them of my problem. They contacted the local centre and arranged for a supply to be collected from a colostomy unit near me and arranged for my daughter to collect a supply to cover my visit.
- Very good thank you for everything.
- All materials are supplied by Fittleworth and we are very satisfied. Form unnecessarily complex! Confusion between manufacturer and distributor.
- Many years with Fittleworth, never had a problem, always been professional and go out of their way to be helpful. Wouldn't change my suppliers, very satisfied with them in every way.
- It is a very good service.
- I have dealt with this company for many years and received excellent service by return. I have no reason to change.
- We need more wet wipes and black bags more as my husband is needed too. We have informed my husband's situation too. I have noticed the quality of the pink bags very thin.

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 64

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	60	4	0	0	0
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

(number of Very good ratings x 100.00) +(number of Fairly

good ratings x 66.67) +(number of Fairly poor ratings x

33.33) +(number of Very poor ratings x 0.00) +(number of

Don't know ratings x)	_ =	(60 x 100.00) +(4 x 66.67) +(0 x 33.33) +(0 x 0.00) +(0 x 0)	
(total number of customer responses - number of Non rated responses)		(64 - 0)	

Your mean percentage score for Q4a = 98%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100 Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0 Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100 Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean	Benchmark data (%)*					
	score (%)	Min	Lower Quartile	Median	Upper Quartile	Maximum	
Q4a Polite and took time to understand needs?	98	95	97	98	99	100	

*Benchmarks are based on data from 35 dispensing locations surveyed between September 2018 and January 2019 with 40 or more responses and a total of 2,704 returned customer questionnaires.
